

Le Gruennald - DBMS

(NSF) ↳ XML, memory resident, semantic, Plan, ...
- online data mining - discovering knowledge

Karl

↳ "Advers in tech; automatic comparison: cast that travel for 8000 budget
light @ \$100..."
(allusion/elusion?)

Lively

↳ SE to control the network/software/HW/kamp centre world

★ - SS iHub - how to develop software (ISE) institute of SE

AI - natural language processing

↳ ontologies/learning systems

Stumbling blocks for the future - cost/design/...

- usability/user friendly (always a barrier)

- idea vs. execution to idea (outsourcing - can help?)

- stumbling on actually knowing how the algorithm works

Motivator: Business vs. Research

↳ ^{to} innovation customer drives the market drives innovation

Problems/learning Algorithms/SE/ - accreditation @ a professional level holding to standards

PE?
